Morgans IN ALLIANCE WITH CIMB

Wealth+

Managed Portfolio Service

Portfolio Administration

How can Morgans make a difference to you?

Our clients have been accessing a wealth of experience in financial services since 1987. While our reputation was established in stockbroking, we now offer a full range of investment and wealth management services.

Morgans is Australia's largest retail stockbroking and financial planning network, with over 57 offices and more than 500 qualified advisers spread across all states and territories of Australia.

Morgans offers:

- Direct access to all listed shares and securities
- New investment opportunities through preferential treatment for company initial public offers and other capital raisings
- Individual investment choice, including tailored portfolios for Self Managed Super Funds (SMSF)
- Research based recommendations – not influenced by institutional ownership or product issuers
- Individual client management
- A comprehensive website and extensive research on a wide range of ASX listed companies, and regular market updates

Morgans has an Australian Financial Services License (AFSL), is a Participant of the ASX Group (ASX), and a Professional Partner of the Financial Planning Association of Australia.

Take the first step …

If you have had enough of chasing paperwork relating to your investments or simply do not want to administer your portfolio, talk to your adviser about joining Morgans Wealth+ managed portfolio service. We make investing easy.

What does Wealth+ offer?

Successful investment management requires constant supervision, accompanied by accurate, up-to-date information and an ability to change investment strategies quickly if the situation demands.

By joining the managed portfolio service both you and your adviser will have the ability to proactively manage and make timely decisions when the situation demands.

Morgans takes the hassle out of investing by providing an all embracing investment administration service. We collect and record investment information (share trades, dividend and interest payments etc) as well as supplying you with regular reports which help you monitor your investments and portfolio valuation.

Many investors are time poor or have no wish to administer their portfolio. This is where we can help. Our managed portfolio service gives investors more time to focus on their investments rather than the cumbersome paperwork.

You will be contacted by your adviser regarding new investment opportunities (e.g. entitlement offers, share purchase plans etc). You simply signal your acceptance and we look after all the relevant paperwork and lodge the application/acceptance with the registry on your behalf.

How does Wealth+ work?

Firstly, all investments are held in your name (unlike other platforms where the investments are pooled with other investors in a single nominee name).

Secondly, the address for your investments is care of the Wealth+ managed portfolio service so that we receive all your correspondence and paperwork.

The Wealth+ agreement we have with you enables us and your adviser to act quickly, thereby ensuring you don't miss out on any investment/divestment opportunities.

Importantly, you continue to maintain control over your investment decisions whilst outsourcing the professional administration of your portfolio to Morgans.

Benefits of Wealth+

Together with your adviser we provide comprehensive portfolio management and advice. We make available the necessary reporting tools for your adviser to closely monitor your portfolio, manage a tax efficient outcome for investments and overall, make investing easy for you. We help make the complex simple.

We make available the necessary reporting tools for your adviser to closely monitor your portfolio, manage a tax efficient outcome for investments and overall, make investing easy for you. We help make the complex simple.

The close working relationship we have with your adviser allows for timely advice so that you don't miss out on any opportunities.

Other benefits include:

- Receipt of regular valuation reports.
- Processing and monitoring of all documentation relating to your investments.
- The provision of a tax report for the preparation of your tax return (including Income and Capital Gains Tax details).
- The recording of all dividends and income details and the follow up of any payments not received into your cash account.
- 24 hour online web access making it easy to track every aspect of your portfolio.
- The arranging of third party payments.
- A choice of five cash management account providers.
- The provision of timely information about capital raisings (e.g. share purchase plans, IPOs, entitlement offers etc) so that you don't miss out on these opportunities.
- Regular price updates ensuring the valuation of your portfolio is up to date.
- Ensuring the correct tax treatment for complex corporate actions such as schemes of arrangement.
- Ongoing portfolio management fees, in most cases, are tax deductible.

Benefits to your accountant or super fund administrator:

- The provision of an annual Accountant Tax Summary report which aids in the completion of your tax return.
- The supply of a data file which will also assist with the lodgement of your annual returns.
- The provision of bank account transaction details via BankLink.
- Online access to your portfolio details via our website.

Wealth+ Reporting

We provide you with a suite of reports that enable you to keep track of your investments and their valuation.

The following reports are available:

- **Monthly or Quarterly**
  - Summary Report
  - Forecast Income
- **Annually**
  - Accountant Tax Summary Report
- **Wealth+ Website**
  - You are able to access your portfolio details via a secure website 24 hours a day.

Wealth+ website – access 24 hours a day.

Summary Report

This report helps you track the value of your portfolio, the income received during the reporting period (including imputation credits) and the forecast income for the next 12 month period. This report helps you keep abreast of your investments. The report consists of four sections:

1. Summary Page
2. Portfolio Assets table
3. Portfolio Transactions
4. Portfolio Accruals

The **Summary Page** provides a snapshot of your portfolio including a valuation summary, the income forecast to be received over the next 12 months, the income received during the period, the imputation credits received during the period and the dividends/ distributions declared in the period but not yet paid.

The **Portfolio Assets table** shows details of your investments (broken down between the various asset categories) as at the reporting period end date so you can easily see which assets you have invested in.

The report also has a table showing all movements in your cash account (including purchases, sales and interest and dividend payments) during the relevant period. This explains how your cash account balance has moved.

We also report the details of any trades (purchases or sales) that have not yet settled or dividends that have been declared but not yet paid so you can plan for future movements in and out of your cash account. These details are reported under a Portfolio Accruals heading.

Forecast Income Report

We provide you with a report that helps you manage and plan for the receipt of income such as dividends, distributions and interest payments. The report forecasts payments up to 12 months in advance, so it is necessary to remember that actual payments may vary from our forecast amounts. The report consists of three sections:

1. **Forecast Income by Asset Category**
2. **Forecast Income, Yield and Franking** (per Investment)
3. **Forecast Income per Month** (table and graph)

The **Forecast Income by Asset Category** page provides a summary of the current market value of your portfolio, your annual forecast income, the yield forecast based on the amounts to be received and the portfolio weighting of each asset category.

The **Forecast Income, Yield and Franking** section shows details of the forecast income for each individual investment you held at the end of the relevant period.

The **Forecast Income per Month** section shows details of the forecast income for each individual investment and the 'months' in which the income is expected to be received so you can plan with your adviser the months in which further investing can be undertaken.

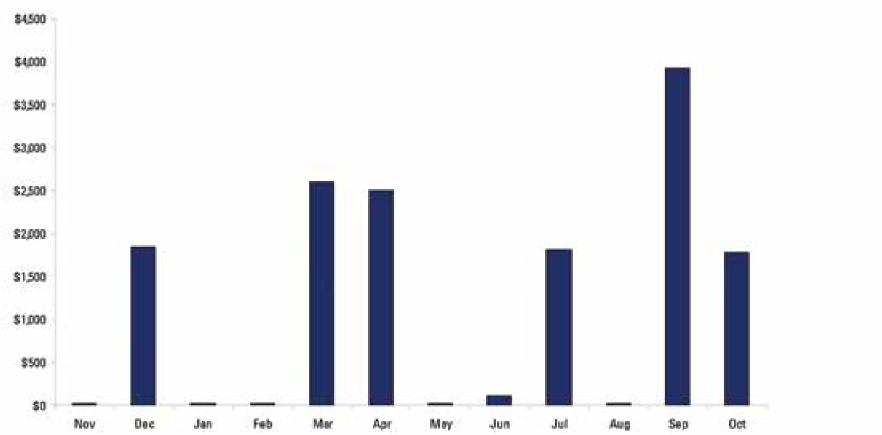
Forecast Income Per Month for the 12 months from 1 November 2013



E&OE

Friday, 8 November 2013 CONFIDENTIAL PAGE 6 of 6
The forecast income shown in this report is based on the presumption that cash dividends are received. Participation in any re-investment plans should be taken into consideration when planning for cash amounts received.
This forecast is based on Morgans income forecasts and third party information which may be based on historical income. Where a forecast is not available, historical figures from a third party will be used.
For Term Deposits (with a term less than twelve months) the forecast details are based on the interest paid at maturity. The "TOTAL $" column in the Forecast Cash Flow table reflects the annualised interest amount.

This document has been prepared by Morgans Financial Limited in accordance with its Australian Financial Services Licence (AFSL no. 235410). The views expressed herein are solely the views of Morgans Financial Limited.

Accountant Tax Summary Report

You will receive an annual taxation report to assist you and/or your accountant/fund administrator in completing your taxation return.

The report shows all relevant transactions including sales, dividends and income received, categorised under the following headings:

Assessable income

Distributions and the relevant tax components including non assessable amounts such as tax deferred payments.

Dividends and their associated taxation credits received through dividend imputation.

Realised and Distributed capital gains and losses

Deductible expenses (such as fees and interest paid on loans)

All information required for the completion of your annual taxation return is provided in this report.

This report will help your Accountant/Fund Administrator complete your tax return.

Wealth+ Website

You are able to access your portfolio details via a secure website 24 hours a day.

The website shows your holding positions as at the close of business the previous day and the value of your portfolio based on 20 minute delayed pricing for listed investments. You are able to generate a number of position, income and tax reports from this website.

The website provides you with access to your investments at a time that suits you.

The **My Cash** screen shows details of all the transactions that have affected the balance of your cash account. It will also show you details of any trades (purchases or sales) that have not yet settled or dividends that have been declared but not yet paid. These details are reported under the Unsettled/Pending Transactions section.
